

BLUETOOTH HANDSFREE KIT BT-A11 Users Guide

MULTI POINT PAIRAGE PROCEDURE :

1. Turn off the BTA-11 by pressing and holding the on/off button until the led flashes red.
2. Pair the additional phone as explained in "Pairing to your mobile phone" . This phone will now be the primary phone.
3. Connect the 1st phone paired manually or turn the BTA-11 OFF then ON to connect both phones automatically.

MULTI POINT USING : Refer to "BASIC OPERATION"

Voice dial and redial will be done using the primary phone only.

You can accept or reject calls from any of the two phones.

When you already have an ongoing call on the 1st phone, if you receive a call on the 2nd phone, you will hear a special ringtone on the BTA-11 while the ongoing communication continues.

To end the 1st phone call and accept the 2nd phone call :

Short press the MFB button will automatically end the 1st phone call and accept the 2nd phone call (audio will automatically be heard through the BTA-11)

Call waiting is not available if two phones are connected

C. SWITCHING CONNECTIONS BETWEEN PAIRED PHONES

The BTA-11 always maintains a maximum of 8 phones in its memory. An additional pairing will automatically delete the phone that has not been used for the longest time. This phone needs to be paired again before it can be used.

You can easily switch to any of the paired phones by :

1. Disconnecting one of the 2 connected phones using the "Active devices" in the Bluetooth menu of that phone.
2. Connecting the BTA-11 to the desired phone by using the "Paired devices" in the Bluetooth menu of that phone.

Reconnection to a paired phone can also be done by pressing the MFB button. However, the BTA-11 will attempt to connect to the last used phone only. Therefore, it is recommended to connect to another paired phone using the phone menu.

SPECIALE FEATURES

A. AUTOMATIC RECONNECTION : If the BTA-11 is left ON, it will automatically reconnect to your phone when you get back in your plane. This automatic reconnection can take few seconds after getting back in range.

B. RESET PAIRING : During pairing mode, press and hold the End/Reject button for 5 seconds. A beep will be heard. Now all phones paired to BTA-11 are deleted.

1. Volume up
2. Volume down
3. BLUETOOTH indicator/charge indicator
4. Multi-function button MFB
5. End/Reject Button
6. On/Off/Pairing button
7. Charger port
8. Connection cord for ICA -13 intercom (on BT-A11C model)
9. Connection plug for ica -13 intercom (on BT-A11T model)

BT-A11 is a Bluetooth hands free kit that supports headset and hands free profile phones . It is designed for easy hands free operation with superior performance.

It allows you to connect a Bluetooth mobile phone to our panel mount intercoms ICA11, ICA12 or ICA13.

Don't forget : Pilot safely and within the law !

Check if the national or local legislation in force in your country does not limit the use of mobile phone while piloting. It is up to the user of this product to respect the said legislation in the area where he/she lives.

INSTALLATION

Fix the piece of velcro supplied on a flat and clean surface.

Place the BT-A11 on the piece of Velcro, in order to not interfere with the commands of the plane.

Use the BTA-11 must remain easy.

For the BT-A11C model, give free space on the right side of the device.

For the BTA-11T model, leave a passage for the rear connection.

ALPHATEC

CHARGING

Connect the charger's plug to the charger port of the BTA-11. Connect the charger to an external power source.

Charge indicator status (3) :

Steady red : Battery low

Steady orange : Charging

Steady green : Battery full

When fully charged, disconnect the charger.

POWER ON/OFF

Power On : Press the on/off button for 1 second, the Bluetooth indicator turns blinking blue. A beep will be heard.

Power off : Press and hold the on/off button for 3 seconds, until the Bluetooth indicator turns red. A beep will be heard.

PAIRING TO YOUR BLUETOOTH MOBILE PHONE

Pair the BTA11 to your Bluetooth mobile phone to create the link or audio connection between the two. The pairing process is required only once for each phone.

Full auto pairing procedure (only for Bluetooth 2.1 mobile phone)

Check if your phone's Bluetooth is enabled and discoverable. Then place your phone and the hands free kit close to each other.

1. From OFF, press and hold the on/off button of the hands free kit until the Bluetooth indicator turns blinking red/blue. Then press the MFB button to search your phone. Note : the hands free kit will search only for 1 minute. If your phone is not found, press the MFB button again.
2. When the hands free kit finds the phone, accept any connection or pairing prompts on your phone. The hands free kit is now paired and ready to use. Note : older phones will ask for the password/pin code. Enter 0000 and press OK. The hands free kit is now paired and ready to use.

Normal pairing procedure

1. From OFF, press and hold the on/off button until the Bluetooth indicator turns blinking red/blue. The hands free kit is now in pairing mode.
2. While the BTA-11 is in pairing mode, access the Bluetooth menu of your phone. Turn on the Bluetooth function and execute a Bluetooth search. See your phone manual.
3. When the phone displays the list of Bluetooth devices, select the BT-A11.
4. If the phone asks for the passwords/pin code, enter 0000 and press OK.
5. The hands free kit is now ready to use.

BASING OPERATIONS

Make a Call : Dial the number on your phone. Audio will automatically be heard through the BTA11. During an ongoing call, the Bluetooth indicator will turn steady blue.

NOTE : With some phones, audio is always on the phone during an outgoing call. You will need to press the MFB button for 1 second to transfer the audio to your BTA-11 kit.

Answer a Call : To transfer a call, simply press the MFB button for 1 second, the Bluetooth indicator will turn steady blue.

End a call : Press the MFB button or the End/Reject button for 1 second to end the call.

VOICE DIAL : Before using this feature, make sure that the voice dialing function of your phone is activated. Some phones need to have at least one voice tag recorded in the phone's memory, not on the SIM card.

1. Press the MFB button for 1 second.
2. A voice dial beep will be heard on the BTA-11 kit prompting you to say the voice tag of the contact to call and the Bluetooth indicator will turn steady blue.
3. Say the voice tag of the contact exactly as how you recorded it.
4. The voice tag will be played back to you and then the phone will dial the number automatically.

REDIAL : *For hands free profile phones only*

Press the MFB button for 3 seconds. The last dialed number will be redialed.

REJECT A CALL : *For hands free profile phones only*

During the ring tone, press and hold the MFB button for 3 seconds or short press the End/Reject button. The incoming call will be rejected.

VOLUME SETTING : Increase or decrease the volume by pressing the volume up or volume down button. Press repeatedly until the desired level is reached. A beep will be heard as lowest and highest levels are reached.

TO TRANSFER AUDIO FROM THE BTA-11 TO THE PHONE : Simply turn off the BTA-11 by pressing the ON/OFF button for 3 seconds and the audio will be automatically transferred to the phone.

TO TRANSFER AUDIO FROM THE PHONE TO THE BTA-11 : Press the MFB button for 1 second and the audio will automatically be transferred the BTA-11 kit. *For some phones, you may need to accept a connection prompt on the phone before automatic transfer takes place.*

ADVANCED FUNCTIONS

A. CALL WAITING : *Before using this feature, make sure that your phone and the phone network both support call waiting.*

If there is a second incoming call, a beep will be heard from the BTA-11.

To end the current call and accept the second incoming call

Short press the MFB button will end the current call and accept the second call. The audio for the second call. The audio for the second will automatically be heard through the BTA-11. *Call waiting is not available if two phones are connected*

B. MULTI POINT FUNCTION : The BT-A11 can simultaneously connect to 2 Bluetooth devices. The BTA-11 is active on both mobile phones. User actions (voice dial, redial) will control the primary phone, but an incoming call on any of the two phones can be accepted or rejected from the BTA-11.

MULTI POINT ACTIVATION : From pairing mode or standby mode, press and hold the VOLUME UP button. A beep will be heard.
